

Our Company

Compression Professionals offers compression garments for both medical and athletic needs, as well as a wide variety of lymphedema bandaging supplies, medical dressings and specialized lymphedema garments. We also offer supportive, athletic and professional grade casual socks, orthopedic braces and strengthening products.

Compression Professionals is a web-based business designed with your needs in mind. Our goal is to offer compression garments, selected by years of training, experience and use; to fit the medical and fitness needs of our customers. We offer clinical guidance through tips, research, suggestions, and personal experience with most of the products we sell.

Our Founder

Jeanne Nourse, OTR/L, CLT-LANA, is a nationally board-certified, Dr. Vodder trained, lymphedema therapist with a foundation as an Occupational Therapist for over 30 years; specializing in lymphedema treatment for more than 20 years. Ms. Nourse is actively involved in product support, education, advocacy groups in upstate South Carolina. She is an intellectual designer of compression garments for breast cancer and genital edema patients while continuing to actively treat lymphedema patients as well as other athletic-related swelling issues.

Compression Professionals is an extension of her passion for supporting peer professionals while helping people improve their health with the best quality products available.
